Mr. Steven Peedin  
Bobbitt Design Build, Inc.  
600 Germantown Road  
Raleigh, North Carolina 27607

Dear Steven:

I wanted to write to you to let you know how pleased I am with our new building and facility layout Bobbitt designed and built for us. This building has been a dream of ours for over ten years and now it is finally a reality. We love the building and the way the traffic flows on busy days. Our customers walk in and just stop with their mouths wide open and say WOW! The customer comments have been great and they love the "shop ability" and the ease of moving through this building.

We have had numerous people stop by just to look at the building because of the uniqueness of it.

Steven, you know I really dreaded overseeing this project because it was so involved but the entire Bobbitt work force was wonderful. Working day to day with Matt Johnson, the job superintendent, was great. Johnny Williams and his crew were always willing to help me with additional ideas and things I would ask them to do.

I just can't say enough how glad I am that we selected Bobbitt Design Build to make our dreams come true. If we ever do any other projects, you have earned our trust and confidence and will be the one to handle future expansions. Thanks again for all the great work from everyone.

Sincerely,

A handwritten signature in cursive script that reads "Susan Rollins".

Susan Rollins  
President
