**RE: GRACE CHRISTIAN SCHOOL – 801 Buck Jones Road**

Dear Mr. Comer:

This letter is to extend our gratitude to the entire Bobbitt Design Build team that designed, built and delivered a new 50,000 +/- square foot facility to GRACE Christian School this past fall 2003.

Our journey with Bobbitt started with a dream, not knowing for sure how the ministry could actually do the project. Your design and sales team were very patient with us as we navigated through the process. They were flexible and insightful to our needs and crafted a building plan that allows us to conduct our school business effectively.

The building process was quite remarkable. The project manager and site superintendent represented your company in a mighty way and not only built us a beautiful building, but also met our critical deadline to open for the Fall 2003 school year! During the entire construction period I felt that your employees and their key subcontractors were dedicated to a quality work product. As issues arose, they kept me informed and guided the project to completion.

It's very difficult to put into words our thankfulness to all the different people that served us along the way, but please feel free to pass along my name and number to any prospective clients and I'll be sure to share with them in greater detail the positive experience we had with your company. While this particular project involved my volunteerism with GRACE Christian School, I hope we can do more business with the various entities I manage at MARTIN PROPERTIES in the foreseeable future. Thank you again for treating us like we were your only customer!

Sincerely,

Bob Dascombe
